Permila Singh

Principal Brookfield International
School - Shamshabad

The world of the 21st century is changing at an accelerated pace. It is a challenge for educators to cope with the changing world order and prepare their students for the future. As Margaret Mead rightly said, 'Children need to be taught how to think, not what to think.' BFIS has successfully navigated change since its inception in 2011 and caters to the needs and aspirations of society at large.

The school has always strived to inculcate creativity, critical thinking, innovation, divergent thinking, along with proper life values for its students. The school conducts a variety of activities throughout the year to nurture these skills in children. The addition of the school magazine provides a space for imagination and unlocks the thoughts and values of both children and staff. It unveils a wide spectrum of creative skills.

Coordinator's Message

Sandhya sinha

Coordinator
Brookfield International
School - Shamshabad

Exploring festivals provides an excellent avenue for gaining insights into one's culture. This month, we enriched our students' talents through an object talk competition, further strengthening our bonds and fostering a deeper sense of patriotism. We truly appreciate your cooperation in molding the future generation.

Independence Day

Brookfield International School celebrated 76 glorious years of freedom! It was a day filled with pride, unity, and patriotic fervor. With the unfurling of the tricolor and heartfelt performances, we honored our past and celebrated our future together.

Debate Competition

We had riveting discussions on topics like 'Is academic excellence better than sports?' and 'Do we still have control over technology, or is it already controlling us? The Inter House Debate culminated with Prithvi House clinching the championship title and Agni House claiming second place. An aura of significance was added to the event by the distinguished presence of Ms. Haritha Reddy, Academic Director, and Mr. Rajeshwar Reddy, CMD. Eloquence and passion illuminated the stage, reaffirming the value of constructive debate.

Radio Mirchi

At Radio Mirchi 98.3 Broadcasting Station, our students stepped into the spotlight! Conversations ranged from school activities to robotics and sports, showcasing their exceptional talents. The interaction allowed our students to express their thoughts, feelings, and opinions on a variety of topics, ranging from school activities to child development, courses offered, child care, robotics, sports, and much more. This experience indeed fueled their quest for knowledge and growth.

Friendship Day

Sowing the Seeds of Companionship with peers and nature! On this Friendship Day, students across all grades from Pre-Primary to Grade 10 embarked on an exhilarating learning experience, exploring the depths of companionship and a sustainable planet. The day showcased the seeds of companionship and sustainable planet solutions while also pledging to watch over these bonds and watch them flourish!

EWSMUN

Brookfield International School's Grade 8 and Grade 9 students participated in the prestigious EWSMUN conference. Our students represented our school with pride on the stage where global agendas were addressed by demonstrating their skills, knowledge, and dedication to diplomacy. By actively engaging in international collaboration and learning, they contributed to the spirit of international collaboration.

Art Work by
D. Charan Teja,
Grade 9

Object Talk Competition

Grade 1 to 5 students participated in the Object Talk Competition, boosting their confidence, improving communication, and developing social, emotional, and language abilities.

Field Trip

Visited Ravindra Bharti's fossil exhibition and stepped into a time capsule! Our learners became junior palaeontologists, unearthing ancient treasures and discovering Earth's history in a whole new way.

Movie time

It was an enriching day as learners experienced 'Gandhi' on the big screen. Cinematic learning at its finest!

Rakhi Celebration

The Rakhi celebration at our school served as a lovely reminder of the strong bonds that unite us. With vibrant rakhis and sincere expressions of affection, laughter, and commitments, the day overflowed with happiness.

THIS MONTH IN PRE PRIMARY

EAT HEALTHY INITIATIVE, UKG LEARNERS

Early nutrition seeds were planted in UKG learners through the school's 'Eat Healthy' initiative.

ELEVATING BODY-MIND COORDINATION

UKG learners focused on elevating body-mind coordination through targeted exercises and cognitive training, fostering holistic well-being.

SCHOOL TOUR

During their engaging school tour, our UKG learners set out on a delightful exploration. Throughout this captivating experience, they were able to immerse themselves in our school's vibrant world, discovering its various nooks and crannies and creating unforgettable memories. Through the corridors of knowledge, they were not just touring a physical space, but embarking on a learning journey as well.

LITTLE ONES OF THE NURSERY EXPLORING THE WORLD OF PHONICS!

They enhanced fine motor skills and hand-eye coordination through the engaging activity of identifying and arranging phonics flashcards in order.

This month in Primary

Perseverance

A remarkable moment as Grade 3 students proudly presented a nest made by themselves! They understood that "With effort and determination, big things could be achieved."

Igniting Patriotism with 'हम बच्चे भारत माँ के'

Grade 3 learners recently embraced the lesson of 'हम बच्चे भारत माँ के' with enthusiasm by visualizing the tricolor.

Addition and Subtraction Quest

Grade 2 students embarked on a journey, immersing themselves in Addition and Subtraction.

This month in Primary

Germination Wonders

Grade 4 orchestrated an enlightening exploration of germination. They inspected the process of life emerging from seeds, engaging in hands-on activities and interactive experiments.

Karate

Nurturing the 5th graders with the essence of karate involved providing them with a comprehensive martial arts education that not only focuses on honing their fighting skills but also places a strong emphasis on instilling discipline and building physical and mental strength.

Vemana's teachings

Grade 4 learners creatively explored Vemana's teachings by illustrating their essence, fostering both artistic expression and cultural appreciation.

THIS MONTH IN SECONDARY

INDEPENDENCE DAY - POSTER MAKING

Students in Grade 7 created vibrant and insightful posters to commemorate Independence Day.

DEBATE MODE

Unpacking the Dynamics of Election Commission Authority

SECRETS OF OUR PLANETS

As our Grade 6 students discovered the secrets of our planets, they shone brighter with knowledge, just as the sun illuminates our days.

A BLEND OF SCIENCE AND ART THROUGH WEAVING

Students in grade 6 explored weaving seamlessly combining science and art.

PARENTING TIPS

Hello dear parents,

We are back again with another fascinating topic in our journey of parenting, aiming to help us understand our parenting styles.

In today's column, let's delve into one of the parenting approaches and explore whether it resonates with you. Let's introspect by asking ourselves this question: "Am I a strict parent?"

So, let's discover for ourselves and learn how it affects the child's development.

- Do I resort to hitting or shouting at my child to control them?
- Do I establish strict rules without the consent of my child and punish them severely if they break these rules?
- Do I restrict their freedom to make their own choices or decisions?
- Do I demand that they adhere to my expectations?

If your answer is yes to most of the above, then you have an authoritarian parenting style. If you don't change your approach, it may damage the relationship between you and your child.

Now, let's consider the repercussions of being a strict parent:

1. Your child develops fear and hesitates to share anything with you.
2. They may become aggressive and rebellious, using these behaviors as their primary way of expressing themselves.
3. They might resort to lying and hiding things to avoid scoldings from you.

UMA DEVI

MSc Psychology, BSc, BEd, Certified Career Counsellor, Certified Child Psychologist, Certified Neuro & Biopsychologist

4. They are more likely to become bullies or associate with bullies.
5. They may use physical aggression to convey their feelings, mirroring what they've learned from you.

Due to this, children lack self-confidence and self-motivation, impacting their drive to excel in various aspects. It ultimately affects their mental health, and they might unintentionally adopt this behavior.

Now, HOW to STOP being a strict parent:

1. Avoid having excessively high expectations from them.
2. Foster open communication, giving them choices for decision-making.
3. Sit down, talk, and solve issues together.
4. Remember that even we are not perfect, so avoiding expecting perfection from them.
5. They are learning, and we are learning in the process as well.

Let's learn and grow together, building a wonderful bond with our kids - Happy Parenting.

Teacher's work

Some effective methods to learn dates in history are:

Take a closer look at the following scheme:

0 = Z (Simply because Zero starts with Z.)

1 = T ('Cause the letter "T" and the numerical "1" are written with a downstroke.)

2 = N (If you rotate the letter N 90 degrees in a clockwise direction, it resembles the number 2.)

3 = M (If you rotate the letter M 90 degrees in a clockwise direction, it resembles the number 3.)

4 = R ('Cause the word FOUR ends with the letter R.)

5= L (Simply because L is the Roman version of 5.)

6 = G (6 and G more or less resemble one another; don't they?)

7 = K (If you rotate the letter K, you will get 7 tilted against a line.)

8 = B (B and 8 resembles one another.)

9 = P (P simply looks like the mirror image of 9.)

Now, whenever you start learning dates, substitute the numbers with the appropriate letter from the list provided above. It will make your task easier.

E.g.,

1776 (The year of the signing of the Declaration of Independence) = TKKG.

—By Mrs. Mohsina [Social Science Educator]

PARENTS' PERSPECTIVE

I AM THE PARENT OF PULUSU SATHWIK - GRADE 1

Teachers are exceptional educators who excels in engaging students, clear communication, personalized support, technology integration, empathy, and fostering inclusivity. Their teaching has greatly benefited our child's academic journey.

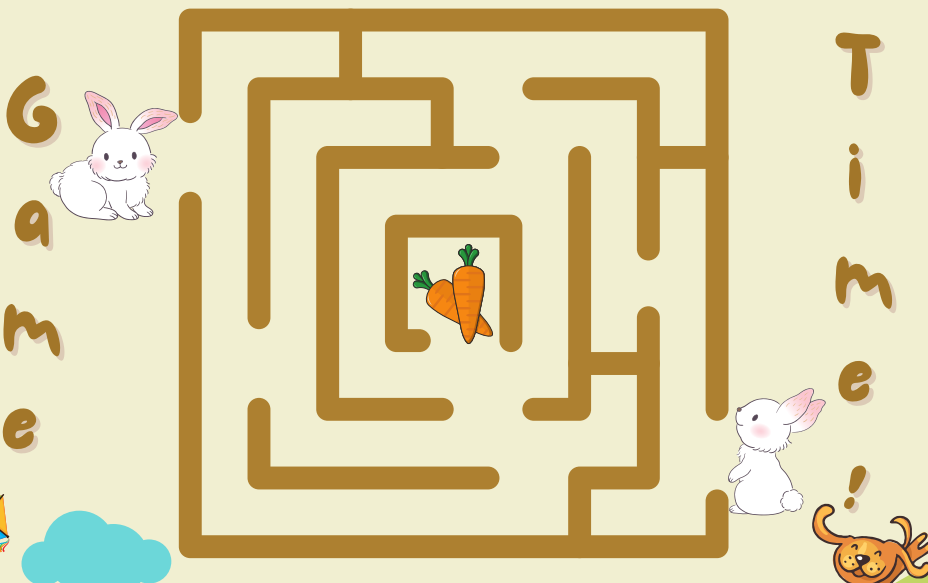

I AM THE PARENT OF CHAITRA SRI MANYA - GRADE 6

We are incredibly grateful for Teachers' dedication to nurturing our child's interests and talents. Through a wide range of activities and competitions organized, our child has had the opportunity to explore their passions in diverse areas. These initiatives have not only broadened our child's horizons but have also instilled a sense of confidence and enthusiasm for learning. I thank the school for their invaluable contributions to our child's growth and development.

Which rabbit eats the carrot first?

Recipe by P. Dheeraj Kumar Reddy of Grade 5

Yummy Yummy Pancakes 🥞

Ingredients:

- 1 cup flour
- 2 tablespoons sugar
- 1 teaspoon baking powder
- ½ teaspoon salt
- 1 cup milk
- 2 tablespoons oil

Instructions:

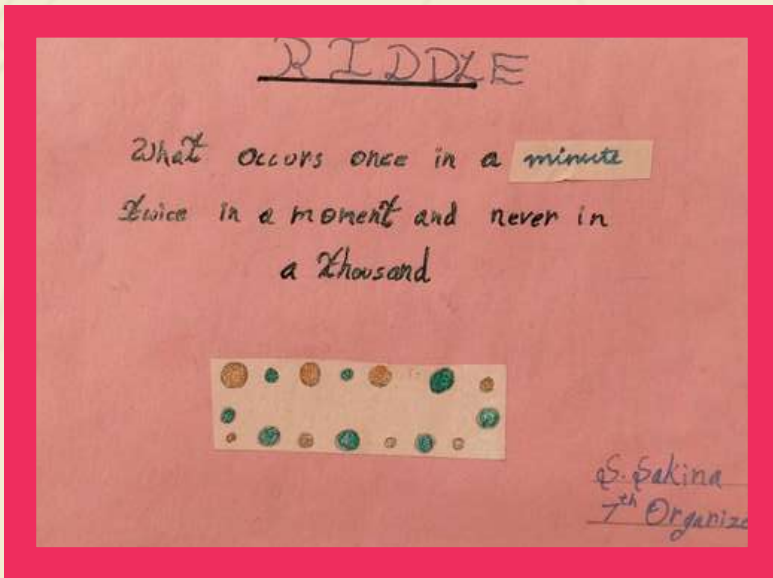

1. In a big bowl, mix the flour, sugar, baking powder, and salt together.
2. Make a well in the centre and pour in the milk and oil.
3. Heat up a frying pan and lightly oil it.
4. Carefully pour the batter onto the pan.
5. Once they're done, serve the pancakes hot
6. Enjoy your delicious homemade pancakes!

Remember, cooking can be a lot of fun, so don't be afraid to get creative with your toppings and make this recipe your own!
